Verse 1:
Say you seen too many things
That turned out to be to good to be true
Against your better judement opened up your heart
Till you found the joke was on you
Lookin out on the rest of our lifes
If were gonna be together or apart
About the only way that I know how to come
Is right straight from my heart.

Chorus:
I want you now
I'll show you how
I can be the man you need me to be
I've been around
But now I've found
That you're the only one for me

verse 2
You say you'll never fall again
You wont subject yourself to such pain
If you give me half a chance, i win
I'll never leave you standin out in the rain
But if you think that i could look you in the face
And lie right through my teeth
Then turn around and walk away
But cross my heart girl I care for you
When I look into your eyes and I say

Chorus 2:
I want you now
I'll show you how
I can be the man you need me to be
I've been around
But now I found
That your the only one for me
I need you so
I cant let go
Gonna be all that I can be
I want you still

I always will
Cause you're the only one for me
