Throw the weight of your life behind  
Blindingly light conversation  
Our very first beauty contest  
On the edge of starvation

Film me, finish me off  
Film me  
Film me, finish me off  
Finish me off

Some psychological palaver  
Where you sit and claw  
At the pages of another  
Emotional brochure

Film me, finish me off  
Film me  
Film me, finish me off  
Finish me off

Film me, finish me off  
Film me  
Film me, finish me off  
Finish me off

Consecrated by perfect lighting  
My blood spread out and danced  
Then you came at me, again, again  
Nasty and advanced

Film me  
Finish me off  
Film me  
Finish me off

My blood just got in your switches  
My blood just got in your switches  
My blood just got in your switches
