Certainly someone who is frozen is not alive, but  
neither are they dead  
They are in a third state a biostasis what I would use to  
describe ... liquid cool

Make me immortal yeah yeah  
I am immortal yeah  
I am nothing yeah yeah  
Becoming liquid cool

Waves of oblivion yeah yeah  
Lap at my feet yeah  
Laugh in my face yeah yeah  
Devil take me... liquid cool

I is another yeah  
We blackout together yeah  
Our little death, yeah yeah  
Twilight elixir... liquid cool  
Make me immortal yeah yeah  
Once more around the sun  
Ã,Â"Ã,Â¹ber religion yeah yeah  
Ultra-evolution... liquid cool

He who lives these words  
Shall not taste death  
Becoming nothing yeah yeah  
Forever liquid cool

The number seventy-two living in another lifetime, the  
number seventy-two ? future ones  
To get into some place in the future where nobody's  
ever beautiful  
But some day we'll look back and wonder how we ever  
tolerated it, life and death.
