I got the right street

But the wrong direction

I got a love jones

Can't make connections

You got me goin' down a one way street

Gonna park my car start shufflin' my feet

I got tight shoes runnin' blues

Excuse me if you will this time

I got the right street

But the wrong direction

I think I'm runnin' a high degree of fever

I wrecked my car

She ain't doin' good either

Turn the T.V. up and the radio down

My whole life is spinnin' around

I got tight shoes runnin' blues

Excuse me if you will this time

I got the right street

But the wrong direction

I got the right street

But the wrong direction

Got a love jones

I can't make connections

You got me goin' down a one way street

Gonna park my car start shufflin' my feet

I got tight shoes runnin' blues

Excuse me if you will this time

I got the right street

But the wrong direction

I got the right street

But the wrong direction
