I don't got love for you babe  
Ashes to ash and smoke in the eyes  
swing low, sweet retribution  
crooning our sad song up in the sky

I care for you the same  
I care for you I do  
just one more thing:  
ever never ever mess with me  
rely  
never mess with me  
cuz I'll get mine...

(your name in lights  
you taste the feeling)

how long will you be my something?  
I'll be your pistol  
this time on your side  
A red glow comes over you babe  
and I am the end, dear  
you know my name
