Hey boy, I'd like to know whatever you need to, feel
good

And he said, you can have whatever you want
It's your wish, hey, hey, what you say?

Just take out your gun and wave it all around
Don't need to feel like no whore
Just move out on the killin' floor

I know that you have heard the story before, oh babe
Just make sure you keep up your end of the deal
Oh, hell no, oh, hey, hey, now it's on

Just take out your gun and wave it all around
Don't need to feel like no whore
Just move out on the killin' floor

Just take out your gun and wave it all around
Don't need to feel like no whore
Just move out on the killin' floor

It feels good, it's your wish, oh babe
It feels good, it's your wish oh, babe
