

Verbena "So What"

Visit "[So What](#)" on MotoLyrics.com

Seems like it's been days and nothing's left for me,
right now
I can walk around and see between the trees, oh, how?
See that's not the way I want it, well now
I will be and you will be and we can call it's me, right
now

It's never really gonna be that much better
(Cause I said so, 'cause I said so)
We could try and kill the scene to make it all better
(Cause I said so, 'cause I said so)
(Cause I said so, 'cause I said so)
(Cause I said so)

Seems like it's been years and I don't call the scene,
right now
I can rescue you and you can rescue me, right now
See that's just the way I want it, well now
I won't be and you won't be, we can call it's me, right
now

It's never really gonna be that much better
(Cause I said so, 'cause I said so)
We could try and kill the scene to make it all better
(Cause I said so, 'cause I said so)

Love's all fine and you can see that we can make it
better
(Cause I said so, 'cause I said so)
'Cause it's never really gonna be that much better
(Cause I said so, 'cause I said so)
(Cause I said so, 'cause I said so)
(Cause I said so)

Even when the money's gone, I want to
As you're dropping like a stone and hold on to nothing
Even when the money's gone, I want to
As you're dropping like a stone and hold on to nothing
