Don't think you can live so long  
You could die of a pretty face  
Big kisses and snow white tan  
All the kids would love a piece

Watch your ego and live on chemicals  
Every boy can't have his own way  
Sympathy was dead but she's back again  
Wear like a dress for a second skin

[Unverified] inside my head  
A celebration of toxic waste  
Making plans to see yourself  
Mommy says to medicate

Watch your ego and live on chemicals  
Every girl can't have her own day  
Sympathy was dead but shes back again  
Wear like a dress for a second skin

Wean me?  
I'll let your hair please?  
And if you don't bleed it's not enough

Wean me?  
I'll let your hair please?  
And if you don't bleed  
Did she want it, did she need it
