### "Freedom to Prevail"

Visit "[Freedom to Prevail](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Life be the topic if I live it then I jot it Baptized in  
aquatics like the loch ness Neck stretched like an  
ostrich, viewing the land Pursuing his will, influencing  
fans, remaining conscious When I drop it, it's dopeness  
Syringe filled with hope kid My words be the medicine  
provide a proper dosage Spirit a little broken God has  
the potion Please take me away, become one with the  
ocean The sun be rising, shadows be joking A back  
stabbers wrath, I laugh at you Romans I'm still reading  
Romans, the pens worth owning I'm unique, so please  
don't talk about cloning I meditate, with a candlestick,  
zoning out To a place that most people only dream  
about I enjoy my solitude, being alone, working on the  
flow Giving myself time to grow [chorus] 2x Life,  
liberty, the freedom to prevail Who cares if P spits to  
himself Riding the rhythm, these beats I impale I'm  
placed on earth, but I'm living in hell I'm back with heat,  
ready to assist Like a Steve Nash pass you see I'm an  
athlete, on this mic, I do tracks for free Calm approach  
speak casually Yes you know the name, P V I Z I'm  
trying to reach the big leagues like Mr. Isley P speaks  
wisely You dudes that be boasting/ be like roaches  
Quick to go into hiding I give my all, you give ten like its  
tithing Bribing cats with cash, claiming that you ball  
You a fraud, so stop lying Head back to the drawing  
board Work on simplifying I cam into this game with  
personality You came into this game trying to battle me  
P got them battle raps, the flow is vicious The beats  
bang, he hooked up with Cold Legistics [chorus] 4x
