"King Of Siam"

Legitimate role transference, a mental deviation, a living, breathing, hypothetical situation. Suddenly, and without warning I'm at odds with myself, could it be, fac-simile, identities on the shelf. Alter-ego plays statego, I simply will not let myself believe.

If I am not the king, then I am nothing...ever

Here I am, the King of Siam

Riddle me this my subject, do dreams convey a truth? when things aren't what they seem, do you know what to do? I am sitting here bewildered, the questions cloud my head. What I thought was, is not, and what is, is not what I thought it was.

Legends in their own minds, cultivate the hype that only builds their psyche.
