### "Shine"

Everybody's talkin' words are flowin' without reason, everyday the papers say, it's black or white, the season. I say blood, it all runs red to me. Can't see why I'd have to be, color blind to see. And you can think about, but it really doesn't matter what you say, cuz' it's all the same song anyway, only matter how you play. Let me take you where you want to be. Shine on the man, let the world know who I am. Shine the man, make him understand. Broke down, but it really didn't matter, and I really didn't care, cuz' I never could say, if I live to die or die to live it's all gone tomorrow what I do today. And I try to hide it all inside but I just couldn't get it to function, you gotta get down to the middle of all my pain and it all just washed away. "Love, Fall on me" -- Kings X
