Ooo  
Ooo  
Ooo  
Ahh

How do I say what I feel inside  
A hundred billion words could not describe  
You really cut me open wide and  
God knows I'm

Trying to get over you  
Trying to be done and through  
Trying to get over you  
Over you  
Over you

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused

Tell me was it worth it cause now it's all gone  
Oh I should have known all along  
The way you left me was so damn wrong  
Now I'm

Trying to get over you  
Trying to be done and through  
Trying to get over you  
Over you  
Over you

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused

Ooo  
Ooo  
Ooo  
Ahh

Trying to get over you  
Trying to be done and through  
Trying to get over you  
Over you  
Over you

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused

From all of the wounds you've caused  
Let me go  
From all of the wounds you've caused  
Let me heal  
From all of the wounds you've caused

Please let me go  
Let me go  
Let me heal  
From all of the wounds you've caused
