Wa-hoo!

Well I've been elected  
to rock your asses till midnight  
well this is my term and i shaved off my perm,  
but its alright  
i solemnly swear  
to uphold the constitution  
got a rock and roll problem  
but we got the solution  
just let me be who i am  
and let me kick out the jams, yeah  
kick out the jaaaaaaaaams  
i done kicked them out

well i've been selected  
to orbit the planet in a rocket(in a rocket)  
im going to mars  
i got a message for the poodle in your pocket(in your  
pocket)  
well mission control  
calling supernova  
the hotline's rockin  
you can come on over  
and let us be who we am  
and let us kick out the jams, yeah  
kick out the jams  
we done kicked them out!
