

## Presidents of the United States of America, The "Slip Away"

I had a girl, yeah, 'Had' is the word  
I tried to hold on but it was pretty absurd  
She said she loved me and I said I loved her too  
But we weren't having any fun, so what could I do?

I let her slip away  
Away  
I let her slip away  
Away

I had a car, yeah, the color was blue  
It kept breaking down, so what could I do  
I put an ad in the paper, you know I called it a steal  
Then this guy came to see it and we struck up a deal

I let her slip away  
Away  
I let her slip away  
Away

I had a thought  
You know I thought it a lot  
I thought I was smart  
And I now I know that I'm not

I let her slip away  
Away  
I let her slip away  
Away
