Love child of Genhis Khan
And a beatiful busty amazon
On the death star with her god father
Darth Vader 9 months later

But that's impossible
She's super colossal
She'll make a fascinating fosill

Supermodel oh yeah
Supermodel not just a regular girl

She made of metal and a million miles high
Hair-do scrapin' the sky
Made it with the terminator
Schwarzenegger 9 months later

But that's impossible
Yeah she's super colossal
She'll make a fascinating fosill

Supermodel oh yeah
Supermodel not just a regular girl
