Some weepy creepy willow pillow boggy shit  
Transcendental big wheel can you feel it  
Chickey face trippin' so damn hard  
Head splits open stuffin' spills into the car  
Cup of dirty water and a lonely boney frog  
Slip me 7 dollars and I'll pump him full of smog  
Paint a monkey gold and let him loose downtown  
Start him with a smile and he'll come back with a frown

Twig in the wind  
I'm thick and I'm thin and all right

Happy feelin' crappy in your nappy little car  
Squozen frozen duplicated drunk in a bar  
Tape recorded all distorted genius machine  
Spokes model dipped in refried beans  
Piggys pay full price to put their head on the stump  
Dusty busty skeletons who pay at the pump  
Mutli nipples rotating dj sap  
I'm shoulder high in crap and my water wings are flat

Twig in the wind  
I'm thick and I'm thin and all right
