I can see everytime I look into your eyes
You don't care a thing about those other guys.
Without words you make me understand what's on your
mind
The rhythm of your body close to mine.
I can tell by the way you dance that you're gonna love
me to night.

Sometimes it's cold, sometimes it's hot
Love's either right or it's wrong
Feels so good, love you a lot
Right here beside me is where you belong.
I don't care if everybody knows the way I feel
Until the dream of holdin' you is real.

I can tell by the way you dance
That you're gonna love me to night.

I can tell by the way you dance
That you're gonna love me to night.

I can tell by the way you dance
