Is it raining at your house  
Like it's raining at mine  
Do you miss me like I miss you  
Is it cloudy all the time?

Do you tremble when the phone rings  
And do you think I'm on the line  
Is it raining at your house  
Like it's raining at mine?

Does it thunder and lightning  
Even when the sun shines  
Is it raining at your house  
Like it's raining at mine?

Is it raining at your place  
Just like it is over here  
'Cause if it is then sweetheart Like me  
I know your scared.

I just called to console you  
Like any old friend would do  
Is it raining at your house  
Like it's raining at mine?...
