### "Release Me"

Visit "[Release Me](#)" on [MotoLyrics.com](http://MotoLyrics.com)

(release me, let me go)

don't knew what you've done

my love's on the run

boy you get me so confused

I can't get over you

it's been so long ago

but it seems you set me under your

hold baby

trapped in my mind

can't get you out baby

so hard I try the memory won't subside

will I ever find a way to leave you behind

chorus:

everywhere I turn, everywhere I look

reminds me of you

when I dream, at night it's deja vu

I'm askin' please, set me free, release me, let me go

don't wanna see your face

or ever hear your name

so deep inside of me

your love I can't replace

was this in your plan  
to leave me this way  
trapped in my mind  
can't get you out baby  
so hard I try the memory won't subside  
will I ever find a way to leave you behind  
chorus:  
everywhere I turn, everywhere I look  
reminds me of you  
when I dream, at night it's deja vu  
I'm askin' please, set me free, release me, let me go  
trapped in my mind  
can't get you out baby  
so hard I try the memory won't subside  
will I ever find a way to leave you behind  
chorus:  
everywhere I turn, everywhere I look  
reminds me of you  
when I dream, at night it's deja vu  
I'm askin' please, set me free, release me, let me go
