

Versaemerge "Catastrophe"

Visit "[Catastrophe](#)" on MotoLyrics.com

I didn't mean forever
Just some time together
This taste won't last
When I'm done chewing you
You won't come back

Stop trying to talk with me
Get in deep
Why would I say what I mean
When you don't mean much to me
I'll forget you soon
Hands-holding don't work like glue

And it's never ending
Whoa
This catastrophe in me
Whoa
I don't want you back
I want what I had
I don't want you back
I want what I had
Before everything I craved was bad

You think it's real
But nothing is all I feel
Maybe I snipped my nerves
You know I can't remember

Stop trying to talk with me
Get in deep
Why would I say what I mean
When you don't mean much to me
And I'll forget you soon
Hands-holding don't work like glue

And it's never ending
Whoa
This catastrophe in me
Whoa
I don't want you back
I want what I had, ooh

I don't want you back
I want what I had
Before everything I craved was bad

Don't want you back
I want what I had
I don't want you back
I want what I had, mmm
I don't want you back
I want what I had, oh
I don't want you back
I want what I had, ohh

And it's never ending
Whoa
And this catastrophe in me
Whoa
I don't want you back
I want what I had, oh
I don't want you back
I want what I had
Before everything I craved was bad.
