"Let down"

My open eyes, they cannot find
The only thing I search for
Like unlocked lips, my words they slip
Back to where I was before
And I've seen you puke and beg
On your hands and knees until they're red
Haven't seen me losing it
Why don't you just quit?
Break this static feeling
Give me what I'm needing
Oh, I thought I'd come around
But then i let you down
Down, down, down
Like an echo, repeated slow
I've heard it twelve times over
Like shaky hands, not useful
When you needed cover
Go ahead, puke and beg
On your hands and knees until they're red
Haven't seen me losing it
Why don't we just quit?
Break this static feeling
Give me what I'm needing
Oh, I thought I'd come around
But then I let you down
Without a warning
Tried your best out on me
Oh, I almost came around
But then I let you down
You say I just can't up and quit
Then I let you down
But your touch is damaging
And I can't quit
Down, down, down, down

Then I let you down
Down, down, down, down
Then I let you down
Like I back bone, I'll hold my own
Break this static feeling
Give me what I'm needing
Oh, I thought I'd come around
But then I let you down
Without a warning
Tried your best out on me
Oh, I almost came around
But then I let you down
