"Afraid of Everyone"

Venom radio and venom television
I'm afraid of everyone, I'm afraid of everyone
They're the young blue bodies, with the old red bodies
I'm afraid of everyone, I'm afraid of everyone
With my kid on my shoulders I try
Not to hurt anybody I like
But I don't have the drugs to sort,
I don't have the drugs to sort it out, sort it out

I'll defend my family
with my orange umbrella
I'm afraid of everyone, I'm afraid of everyone
With my shining blue star spangling tennis shoes on
I'm afraid of everyone, I'm afraid of everyone
With my kid on my shoulders I try
Not to hurt anybody I like
But I don't have the drugs to sort,
I don't have the drugs to sort it out, sort it out
I don't have the drugs to sort it out, sort it out

Your voice is swallowing my soul, soul, soul
