Cry your eyes
Seen this face a thousand times
Falling from my fantasy

Slip inside
The world to be
A victim of your sympathy

Seem to know
How to kiss the fire
That burns the box we live in

Is it a shame
The game persists like this
The game persists like this
Cry your eyes
Seen this face a million times
Falling from my fantasy

Oh, Slipped inside
Your world to be
A victim of your sympathy

Mmm, you seem to know
How to push the fire
Oh, that burns the box we live in

Circle me with indecision
Cover with pristine precision
Add to, add to your shame

Falling
Falling out
Of loveâ€¦with you babe

Falling
Falling out
Of loveâ€¦with you!

Oh, come inside
Oh, open up your eyes

Baby I know the deal
Oh, are you for real

Mmm, Cry your eyes
I've seen this face a million times, a million times
Falling from my fantasy

Slip outside
Your world with me
A victim of your sympathy

Oh, you seem to know
How to push€you push

Oh, oh, yea
This has been a shame (?)
The game persists like this
The game persists like this

Falling
Falling out
Of love€with you babe

Falling
Falling out
Of love€with you babe

Falling
Falling out
Of love€with you!

Falling out
Falling out of love with you
Falling out of love
