I call you on the phone but to me you're not at home

Even though your name is still the same as mine

Your thoughts are not of me and everyone can see

That someone else is taking up your time

CHORUS:

Oh I will always love you even though you break my
heart each day

I'll go right on caring dear in the same heart aching
way

I know that you're not thinking of how you broke my
heart

But I will always love till death do us part

(REPEAT CHORUS)
