The way is through the pain
Always charge, never fake
Honorship, make your stand
Live for honor, glory
Death in Fire

Don't tell what is here
Face it without fear
At your sword, at your spear
Fight for honor, glory
Death in fire

See the fire rise.
Face our begging eyes

> Soon all that burns will die
Burn for honor, glory
Death in Fire

Storm up, lethal blaze
Only death remains
Labyrinth, is closing in
Die for honor, glory
Death in Fire

Faces of choas, it's all their move
Everyone chose your side
And though the end is coming is soon
The day for all to die

Die...

The day itself where one must break
The thunder whom we rise
Wether death rides from the west
The circle spreads like fire

All you know will weather away
And sink into the same
A newborn will be born one day
When everything is sane

Don't tell what is here
Face it without fear
At your sword, at your spear
Fight for honour, glory,
Death in fire

Storm up, lethal blaze
Only death remains
Labyrinth, is so big
Die for honor, die for glory
Death in Fire
