The dream is over and  
The last shots were fired  
The eulogy of fear seems uninspired  
The casualties were counted  
We're the only one's dead  
Gather on drowning in our own blood we (?)  
But I've heard that the ghosts in these bottles  
Will sing our songs, long after we have gone

So lets own this  
That we broke this  
Here's to the end

The trances won't be the same without you  
Your memory will always be there  
I know exactly everything you went through  
Remember I was right there next to you

But I've heard  
That the ghosts in these bottles  
Will sing our songs, long after we have gone  
So lets own this  
That we broke this  
Here's to the end  
So let's face it  
But embrace it  
Here's to the end  
Goodbye my friend

And I wish  
The ending was as beautiful as the story

But I've heard  
That the ghosts in these bottles  
Will sing our songs, long after we have gone  
So let's own this  
That we broke this  
Here's to the end  
So lets face it  
But embrace it  
Goodbye my friend

Till the (?)  
That we broke this  
This is the end
