

Versus The World "Seconds To Shine"

Visit "[Seconds To Shine](#)" on MotoLyrics.com

This is the moment only seconds to shine
I've had years to prepare
If the joys in the chase I could die in this place
With a smile on my face

If we could see us now
Would we make ourselves proud
You know I thought my whole
Life was meant for this
You know I fought and I swear
I would die for this
For one last chance to make this ours

Embellish this moment most people live their
Whole lives without feeling this good
Disguised in this smile is fear laced with hope
That wont die but disguised in this hope
Is a doubt in my soul that's been eating me alive
