Every morning when I rise,

I wish that I could wake,

And see your eyes,

And pull you close to me.

There is not a single day,

That you don't touch your heart, some way,

You give me strength when I am weary,

You're my light when I can't see,

If there's anything you ever need,

I hope you turn to me.

(CHORUS)

I would give you anything just to be your everything,

I would give my heart completely,

I would shower you with love,

I would give you anything just to be your everything.

Heaven must have sent you down to me,

Just to be your everything,

I would walk a thousand miles just to see you,

I'd write your name across the sky to let you know I
care.

Girl you showed me how to love so unselfishly,

With you I feel complete,
When you're cold I wanna warm you,
When you sleep I wanna hold you,
Girl you mean so much,
I need your touch.
I need for you to know,
If you're ever feeling pain,
I'll be your shelter from the rain,
I'll be the air you need to breathe,
Baby you mean the world to me.

(CHORUS
