The global clock moves down to zero while the armies
march along

They surround Israel's weakened sides; They're just
about to throw their bombs

In Armageddon Valley someday (someday)
Christ's returning in the air
Rows of thousands that have that have called His name
And no one seems too scared

Jesus displays his power today. He's got His soldiers on
platoon.

They met the Beast who can't believe he got defeated
there so soon

In Armageddon Valley someday (someday)
Fiercest battle in the land
Bible explains about a war like this
And the simple don't understand

The future comforts those
who know He won their souls
They're lookin' forward to this scene
Armageddon day
It isn't so far away
You need to change your loyalty

Da da ta ta....

In Armageddon Valley someday (someday)
Christ's returning in the air
In Armageddon Valley someday
Fiercest battle in the land

In Armageddon Valley someday (Armageddon Valley
someday)....
