Practiced in the basement each Monday  
We sure knew an awful lot of tunes  
But we had to find a way; we had a lot of things to say  
What the music needs is a way to take the style  
And change a word or two with some knowhow  
Gotta get the message, put a song to it  
We're in the world, but we're not of it now  
Ohhh... Christians doin' music  
Ohhh... Christian music  
Ohhh... Christians doin' music... for the times.  
There are words - you know better  
Than the Word of God  
'Cause you've heard them in your favorite song  
We can take that, change it all around.  
Oh, we gotta play that rockin' sound  
If that all sounds good to you  
And you see the way we see  
There ain't nothin' this old group can't play  
Grab your Bibles, pick yourself a line  
Oh, we're gonna play it one more time  
CHORUS  
From the harp of little David  
Playin' maskils and the psalms  
To the crowd in Revelation  
People praisin', trumpets playin'  
While the world sings a song to God!  
CHORUS
