Well, Egypt girls are hip, I really dig my wife from there
And the Sidon girls with their pagan gods
They Tyred me out and I got snared
The Middle East foreign leaders gave me pagan
female wives
And the Moab girls with the way they kiss
They make their boyfriends Moabites

I kissed an awful big crowd of foreign girls
I guess they altered me kinda sorta
My wisdom faltered because of foreign girls

I guess I had a fun time as the world's most richest
man
I think I had at least a thousand wives counting
concubines
From all these different lands
I ran around with pagan girls
And I gave 'em all diamonds n' pearls
Yeah, but I should've stayed with girls who had the
same faith
That's with the Jewish girls in the world

I'd list them all and recount 'em for ya
I just don't want to be proud and bore ya
It's just an awful big crowd of foreign girls

So listen close to me I'll inform ya
(Girls, girls, girls yeah I said)
My ship got lost at sea kinda sorta
(Girls, girls, girls yeah I said)
I switched philosophies now I'll warn ya
(Girls, girls, girls yeah I said)
They just ain't worth the grief I implore ya
(Girls, girls, girls yeah I said)
