Well, the atheists and the agnostics know
But they don't wanna listen to their conscience, though
Man was made by God; everybody knew it
Some ignore it, some deny it; Gehenna knows they're
coming
Always pleading ignorance -- willingly denying your
common sense

Romans 1:18 " listen to the words of Paul:
The wrath of God abides upon people who pretend that
they don't know
All creation that you saw was evidence of the existence
of God
Tonight you'd better stop acting like your stupid
If you don't you'll find yourself with those who willingly
deny the truth
