Daring me? Sorry motion.  
Jamming me? Never break the oath.  
Sin for salvation  
Like leaves we flow  
From a need to nothing  
I said give me a blow  
Do not forsake me  
A breath from the past  
Kissing me  
The blood (??)  
I never felt so calm before  
The entire world deceased  
So bring us all  
Let's hallucinate  
(??)  
(??)  
Of no mans resurrection  
Because you know it to  
(??)  
Reflection from the death  
A meaning of it all  
It all occures as a stich  
Just a stich
