Heard you have your doubts 'bout the way it all turns out
You're so certain that there's nothin' that could make God wipe us out
You can't see how a loving God could send men to Hell
Well, Noah didn't doubt -- He took the Lord's advice
He said, "Noah, build a boat and stick your family inside it
'Cause if you wanna live you'd better listen to me"
Noah tried to spread the word around
They said, "Noah, we'll be fine -- We're not gonna drown!"
You've heard it all before, how Noah was ignored

They refused him and abused him but he took the wood and used it
To build himself a boat while there was no rain in sight
So when the flood arrived, they surely were surprised
When they found out they were all drowned -- it's a shame, but anyway
You can't go forcing someone to believe what's right
Noah tried to spread the word around
They said, "Noah, we'll be fine -- We're not gonna drown
We're not gonna drown, we're not gonna drown, we're not gonna drown!"
