liquid dripping  
morals slipping  
did you ever know  
that the dark could hold  
your brightest day  
well guess what  
yeah  
so hold me tight  
so love me true  
lived my life to this point  
to be killed by you  
all you can say's  
you never knew  
well I had an idea about this  
just don't ask me  
to explain it  
I couldn't say  
love kills day  
we've gone astray  
hold me to the right path  
hold her too  
we can't make it without you  
no brain's died  
it's too damn hard  
can't remember  
which is our car  
gonna die at the wheel, can't see or feel
