You carried me in a rocket ship  
to the farren moon  
so you brought me in an unworthy ship  
to the bottom of a bottomless sea  
I ate it all up and you looked tastie  
and you swallowed my blood  
and I swallowed your words whole  
oh baby what's it all about  
would you do mit again  
You picked my love to  
smoke out your heart  
I'm the chosen man for this  
suicied mercie mission  
but you faught the sistem of the rollong down stairs  
yeah you skreamed to the bottom  
Was it me or something yet to br discovered  
you kiss me I kiss you hard  
you slapped my face  
I tore you apart  
you loved me like nothin'  
I loved you like a little more each day  
so oh love oh darling  
wowe to the once more  
for dying without sayin' where you were headed  
I'm the creation of the created  
your the creation of my mind  
it's due to you crazy  
die my haert of killing souls  
die for lack of self control  
live to love the love from above  
still dead and believing  
Oh God you love my love  
is she something new  
cause I'm pretty sure my dad was sayin' something  
oh baby what was it all for  
love to die with you
