have you hurt a thousand times
died a thousand deaths
wonder what love is
lose your breath
he was one man, one man
is the parent's moral also the child's
under age mother and a dead brother
with a second and third but no first...
child
he was one man, one man
one man alone with millions
one man with one truth
one man with love for all men
love for one God
one man of faith
he was one man, one man
