(C)I've a shadow,it follows close to me.  
It's at my back shows in the semi light.  
People see it,they talk and stare.  
but I don't see it, and it's ready to pounce.(C)  
They comeout when I'm luke warm, only absolute light  
frees me of  
them.  
Hello my sweet shadows you are seen.  
Feet apartand spread em,I've got the light right here.  
It'll kill kill kill you,so die die die,can't escape my eye.  
(C)-> shadows come and shadows go.they taunt and  
laugh but I don't see them.they come out when I'm luke  
warm,  
only absolute light frees me of them.
