This mountain we must climb over
This mountain we must climb
I will follow you over
We will survive

It's time now
We must be moving onward
It's time for us to fly
Take care and look over your shoulder
I'm there all the time

If you're lost, and you need someone to count on
Woah, you gotta look to me
'Cause it's times like these when a good friend is a
savior
Woah, you come running on back to me

It's time now
We must be moving onward
It's time for us to fly
Take care and look over your shoulder
I'm there all the time
And someday when you're feeling awkward
And someday when you're down
Come to me, I will give you anything
I'll turn your frown around

What you've done for me is more than I could hope for
Woah, you are my friend
And I'll be there for you through happiness and sad
times
Woah, our love will pull us through

This mountain we must climb over
This mountain we must climb
I will follow you over
We will survive

We will survive
We will survive
