[E-Roc]

My motherfucker took led it was unexpected
Mobbed through the do', smelled the disinfectant
Mashed third flo' on the elevator
Seen Boots hemmed on the respirator
Death was on his face too soon
C'mon baby holla at your ace boom coon
Tell me who it was and I'll be buckin like a untamed stallion
Say another word and see me gather a batallion

[Boots]

Shit, I give a fuck who did the killing
Got a puncture in my lung, tell em gimme penicillin
Fingertips ain't got no feelin, pain-killin, gimme codeine
Don't let me vomit up my guts, let's keep the flo' clean
I seen em comin for a mile through the rearview
I'll tell you one thing bout them po-po's, they don't LOVE you

[E-Roc]

Sheeyit, like I needed you to tell
Motherfucker make sense - you delirious as hell

[Boots]

Lean over the bed and let me whisper close
Watch these motherfuckers with the stethoscopes
You know I'm uninsured up in this b-i-otch
My medical plan was to not get shot

My bills be colossal, creditors be followin me

of thoughts that's given

Fuck these motherfuckers tryin to pimp me for livin

Scrape up scrilla for the box I'm in

if we can't hock some ends, for this oxygen

[E-Roc]

[E-Roc]

Motherfuckers tryin to live like the Huxtables
Comfortable, but my bank account ain't functional
And now another thing that's disturbin me
how the fuzz gon' put you in the infirmary?

[Boots]

See I'm a communist, I'll tell yo' momma the truth
And now they wanna assassinate me like they John
Wilkes Booth
But umm, recognize sperm, cause yo' brain is the
maternity
Conception through yo' ear, now my game lasts
through
eterni-*cough*-ty *cough, cough*

"Breathe again, breathe again..
And I will never breathe again.." -> Toni Braxton
(repeat 2X)

[Doctor]

Well, I've been looking at the patient's stats
It seems as if he's lost his will to pay
