( next message )

Disconnected, it's the way that I wanted it to be  
The cult electric is my favorite record of the week  
'cause I'm not feeling sweet

But I can't say that when everyone is so judgmental  
That I can't play back all the times  
When you were gentle 'cause even you cant be true

It's astounding what love can do to a city  
Laurel canyon was the best place for you and me to be  
I chose the curtains and I dreamed a dream of  
domesticity  
What a freak you made of me

Now I'm on zoloft because you told me I was crazy  
And I won't jump cause now I know you'd never catch  
me  
And I can't leave you because you swore you'd never  
let me  
But even you, talk shit too.

It's january when I jumped the fence of your backyard  
Finish the fairy tale that you werent drunk enough to  
start.  
It's kind of scary when your lover leaves you for a  
movie star  
And I'm still in the dark

But you have trained to watch my back and drop my  
standards  
And you have shamed me since the first time you were  
with her  
And you cant make me love your band or buy your  
records  
'cause you have tainted my respect for your  
adventures

And you will never have the chance to trace my futures  
( it's kinda scary when your lover leaves you )  
And you will never make me feel like such a loser

( it's kinda scary when your lover leaves you )  
And you can't have the past 'cause I'm in love with the  
future  
( it's kinda scary when your lover leaves you )

( it's kinda scary when your lover leaves you )  
And I love the future  
( ? ? ? ? )  
It's kinda scary  
And I'm in love with the future  
Touch the sky  
And I will kiss the gravel  
Touch the sky  
I'll touch the sky  
Watch me watch me  
I'll touch the sky  
I'll touch  
The sky  
The sky
