Miss america
Do we infect
Well can I ask you
Is that perfect
When all the smiles make us frown
And I don't wanna be here
Wanna stick around
We all fall down and we don't care
Cause I hate you
And you hate me too
We don't care what people say
We don't even try
Just spit it out
Cause I'm revved up
And three
Is one too much
When all the smiles make us frown
And I don't wanna be here
Wanna stick around
We all fall down and we don't care
Cause I hate you
And we hate
Cause we want to
Cause we want to
Cause we want to
And I don't understand anything you do
We all fall down
We all fall down
And I don't wanna stick around
Straight, straight through and around
Cause I hate you
Hate you
Hate you
Hate you
Hate you
I hate you
Hate you (x7)
