Here she comes
Seven suns
A burning flame
She got my love
Got my head
But It 's all the same
She climbed so high
I don 't know why
High, on her own
And I know
She 's in the air
And I don't want it to go
I can breathe the air
But I don't want it to go
She got my woe
And I know
Took the dreams
Right outta my head
She bought the world
I paid the bills
I took those pills
It was wind in her sails
She climbed so high
I don 't know why
High, on her own
Slide Away burn away
She 's in the air
And I don't want it to go
I can breathe the air
But I don't want it to go
