Roll the dice  
Now will I wipe the tears from the skies  
Play your hand  
How will I love my marlboro man  
Say your prayers  
Cause you've got enemies everywhere.

Your wetsuit is keeping you warm in your cold bed  
I'll never be torn from you  
You try to keep it together  
You try.. your best to forget her

Silly me  
Always a sucker for monogamy.  
Honesty  
Seems to bring out the better in me.  
I wish I knew  
Another way to ruin a day for you.

Your wetsuit is keeping you warm in your cold bed  
I'll never be torn from you  
You try to keep it together  
You try.. your best to forget her

I.. just.. can't.. leave you this way..when you're not ok  
And trains.. will.. pass.. through here some day, and  
take you away  
But you won't let me hit the ground  
When my heart slows down

Your wetsuit is keeping you warm in your cold head  
I'll never be torn from you  
You tried to keep it together  
You tried to keep it together

Keep us together  
Keep us together  
Keep us together  
Keep us together
