Is it worth it to wait forever?
You find out there's really not much more that you can
say
Would it be worth it to wait forever?
Everyone is saying you will come around

Is it worth it to search forever?
You find out there really isn't much that you can say
Would it be worth it to wait forever?
Does it make it easier?

Save your time, give yourself
To open faces, open mouths
To any other one who reaches out
Does it make it easier?

Is it worth it to wait forever?
You find out really not much than you can say
Would it be worth it to wait forever?
Would it make it easier?
