"Farewell"

Visit "[Farewell](#)" on MotoLyrics.com

Didn't think I would see you so soon
And I thought we parted our ways for good
We used to walk together but the future looked
grim
So I left you behind in the desert that day
Shook off the dust and never turned around
Need to walk, need to walk
Keep walking on
But you're still here

Farewell this time
Can't change what's been done but can't
move on with you around
Farewell this time
From now on it's forever to a different state of
mind
This time

Freedom isn't mine tonight
Maybe it was here but it seems otherwise
The truth was never simple and you water it down
Wet my feet. pull me back
Slip and fall to the ground
The place where I am
Was where I was yesterday
I need to walk, need to walk
Keep walking on
But you're still here
