No matter where Iâve been or who Iâm with  
I just never ever really fit in  
Could this be a curse to think of the worst  
But I know this just canât be it  
Been to all the sandy beaches and city high rises  
But they're far in comparison  
I keep dreaming of a place thatâs far from here  
A place Iâve never been, no, no  
Because my loverâs waiting there for me  
Preparing a place where I can be  
If you want to come along and see  
Baby just ask me  
Wonât you please

Wherever He is there is heaven there  
Wherever He is Iâm walking on air  
Wherever He is no one else compares  
Wherever He is I want to be there
