It's late at night I broke into your house  
Your all tied up with my cock in your mouth  
Tell me whore, how does it feel?  
I'm in your ass and hard as steel  
Your mind is lost, your body is raped  
My perverse insanity drive to ravage, violate

There's no way out / There is no escape  
Your victim to utter fucking rape!

How you wonder where your children are  
Don't worry their watching getting psychologically  
scarred  
I bet you wish your husband was here  
He'd only look into my eyes and run in fear  
The bastard we conceive I won't be his father  
And when I'm through with you I'll have your daughter

There's no way out / There is no escape  
Your victim to utter fucking rape!

Forever etched in your mind... this horrible scene  
If not in reality... I haunt your dreams  
Yours and your daughter's innocence... is forever lost  
When you crossed the line... you paid the cost  
Now I can only laugh... about your situation  
Your grief and suffering... my satisfaction!

Now as I sit here in my cell  
Ready to unleash my perverse Hell  
Upon the woman who I obsess  
Eternally, I'll be lusting for her flesh!

Lusting for her flesh!
