Just like Magic

Â© 2002 Nedrick Gavin / Viros Music

Track 8 from the CD album "Change"

Chorus.

Magic (just like magic)

It's just like magic (strictly magic)

To watch the children grow (don't you know the future
of the world is in their hands)

I say like magic (just like magic)

Strictly magic (strictly magic)

To watch the children grow (don't you know the future
of the world is in their hands)

1.

Seem like yesterday, they were all so small

You could cradle them in one arm

Your deepest thoughts they provoke

Yet no words they spoke

They depended on you oh so much

Chorus.

Magic (just like magic)

It's just like magic (strictly magic)

To watch the children grow (don't you know the future
of the world is in their hands)

I say like magic (just like magic)

Strictly magic (strictly magic)

To watch the children grow (don't you know the future
of the world is in their hands)

2.

We see them today growing up so fast

We sometimes wish their childhood would last

You protected them well

But your experience tell

Some day their innocence would be lost

Chorus.

Magic (just like magic)

It's just like magic (strictly magic)

To watch the children grow (don't you know the future
of the world is in their hands)
I say like magic (just like magic)
Strictly magic (strictly magic)
To watch the children grow (don't you know the future
of the world is in their hands)

3.

Those school days were long
Yet you stood strong
Faith and love your inspiration
Now they are poised to take over the world
No longer helpless, boys and girls

Chorus.

Magic (just like magic)
It's just like magic (strictly magic)
To watch the children grow (don't you know the future
of the world is in their hands)
I say like magic (just like magic)
Strictly magic (strictly magic)
To watch the children grow (don't you know the future
of the world is in their hands)
