(Verse 1)

Somewhere between the end
And the point that we began
There's a fire burning brightly
That's found it's way to town

Chorus

When the feeling's gone
Shine on, shine on
And onto something new
It's long and over due
I will remember you
Shine on, shine on
And let the others see
You got your victory
Will you remember me?

(Verse 2)

I was with you in the valley
And up upon that hill
So I take just one more step in front of you
For I am with you still, you still
And I will...

Chorus

Shine on, shine on
And onto something new
It's long I know I do
I will remember you
Shine on, shine on
And let the others see
You got your victory
Will you remember me?

Can you see my hands are open?
I'm waiting just ahead
And d'ya think of me at all now?

Shine on,
Shine on,
Shine, oh shine on

Won't you, won't you shine

Chorus

Shine on, shine on
And onto something new
It's long I know I do
I will remember you
Shine on, shine on
And let the others see
You got your victory
Will you remember me?

Somewhere between the end
And the point where we began.
